

**WG3 Progress Report
to the
5th NEAOSS Promotion Forum**

**Study on Standardization and Certification
WG of NEA OSS Promotion Forum
Fukuoka, Japan, 2006-11-22.**

WG3 Organization

- WG3: Study on Standardization and Certification
- WG3/SWG1: IM Engine Service Provider Interface
- WG3/SWG2: Web Contents Interoperability

Liaison with the Free Standards Group
and IMBUS project

SWG1

- Accomplishment
 - Agreed upon IM Engine SPI Feature list
 - Agreed upon Event Flows of IM Engine features
- Business Plan
 - 1st draft of IM Engine SPI specification by the end of 2006
 - Final draft will be completed by the middle of 2007

SWG2

- Accomplishment
 - Agreed upon objectives & scope
 - Developed business plan
 - Decided to start two projects
 - Agreed upon Table of Contents of the “Report of Web Interoperability Discrepancy”

Report of Web Interoperability Discrepancy (Project SWG2 001)

Identification of current situation of Web
Interoperability

- **Business Plan**
 - 1st draft by Mar. 2007
 - Final draft by Sep. 2007
 - Approved draft by Dec. 2007
 - WG3 approval by Feb. 2008
 - Publication by Mar. 2008

The Guideline for Developing Interoperable Website (Project SWG2 002)

Provide guideline for website developer to make an interoperable website

- **Business Plan**
 - 1st draft by Jun. 2007
 - Final draft by Dec. 2007
 - Approved draft by Mar. 2008
 - WG3 approval by May. 2008
 - Publication by Jun. 2008

Embedded Linux Study

WG3 had studied purpose and justification of "Domain specific solution map upon embedded Linux" and concluded that development, promotion of OSS technologies and human resource developments are required for further adoption of embedded Linux, rather than standardization in scope of WG3.

Welcome to join WG3

WG3 wishes more members of NEAOSS to join us and make contribution in achieving the interoperability among OSS IT systems in CJK and the rest of the world.

Thank You
